

Innovation Programmes Schedule 2023-2024

**QUEEN'S
UNIVERSITY
BELFAST**

STUDENT ENTERPRISE

We are dedicated to empowering students and graduates through dynamic enterprise opportunities and immersive experiences. Our mission is to enhance the academic journey by instilling entrepreneurial skills, transcending disciplinary boundaries to unlock the potential for commercial success.

By embracing this approach, learners are poised to excel in their chosen fields with a sharpened commercial acumen, ensuring a profound impact on their professional trajectory.

ACADEMIC ENTERPRISE

Passionately and professionally, Queen's University Belfast extends the invaluable opportunity of comprehensive training and development programmes to both our esteemed academic staff and dedicated students. In a collaborative effort with external partners, these programmes are generously funded by QUBIS and third parties. We foster close partnerships with accomplished academics, aspiring entrepreneurs, discerning investors, and a myriad of industry experts.

CORPORATE ENTERPRISE

The Innovation Programmes Team at Queens is actively managing an expanding portfolio of corporate-sponsored initiatives, alongside programmes tailored for Small and Medium Enterprises (SMEs). While fostering the growth of startups and Innovation Driven Enterprises (IDEs) remains pivotal, it is equally important to establish a robust support framework from both the private and public sectors. This concerted effort is essential to not only nurture their inception but also to ensure their sustained survival and dynamic growth.

ICURe PROGRAMMES

Innovate UK ICURe is a pre-accelerator programme for researchers. This programme is designed to help explore the commercial application and potential of UK research.

Within the ICURe programme, we have developed a range of funding and commercialisation training with industry experts, and this is delivered via our 4 key programmes; ICURe Engage, ICURe Discover, ICURe Explore and ICURe Exploit.
